# Practice Answer Sheets

The real STAAR test is taken online, but marking your answers here while you practice makes scoring quick and keeps your work organized. For each multiple-choice question, fill in the letter of your answer. For **griddable, equation-editor, and "Select TWO" items**, write your answer in the box or circle both letters. Write your **SCR and ECR responses on separate lined paper.**

After the test, score with the **Quick Answer Keys**, then fill in your **Score-Tracking Sheet** and **Strand Diagnostic Chart.**
